

## Building

Transform the building application processes

Ready Community's Building module provides everything you need to achieve high quality efficient and effective execution of fully managed building application processes.

- **Effortless application management with effective communication:** Handle building & plumbing applications seamlessly from submission to approval, including billing and payments.
- **Comprehensive inspection and review:** Ensure regulatory compliance with thorough inspections.
- **Proactive risk assessment:** Manage issues proactively with efficient protocols.
- **Efficient correspondence handling:** Manage correspondence with accuracy and speed.
- **Elevated service quality:** Optimise processes for exceptional customer satisfaction.
- **Applicant-centric "virtual hub" access:** Empower applicants with a user-friendly central hub.
- **Empowering authorised officer mobility:** Boost officer effectiveness with innovative solutions.
