

Infringements

Effortlessly manage public infringements

Effortlessly oversee public infringements with our Infringements module. Empower rangers to issue infringements on-site, ensuring seamless data synchronisation with your ERP system for swift action.

- **Field-friendly infringement issuance:** Rangers can issue infringements while in the field, with immediate data synchronisation to the ERP system.
- **Mobile convenience:** Capture evidence and record infringements using iOS or Android devices.
- **Versatile infringement scope:** Cover a wide range of matters including vehicles, individuals, and animals with the ability to issue infringements.
- **Comprehensive data integration:** Utilise data from users, mobile devices, external sources, and other systems to manage infringements across their lifecycle.
- **Centralised information access:** Access, update, and generate reports, offender letters, and exportable data, ensuring efficient utilisation of all information.
- **Fully customisable system:** Tailor the system to your specific needs, ensuring it aligns with your councils' requirements, and supports privileges and security measures.
