

Local Laws Permits

Transform licensing & compliance across your council

Managing a diverse array of local laws, permits, and licenses is a multifaceted task for councils. These regulations encompass activities of varying risk levels, collectively shaping the organisation's reputation for quality, integrity, and customer service.

- **Tailored question lists configuration:** Enable users to customise dynamic question lists, adapting to specific circumstances for each permit application.
- **Permit lifecycle tracking:** Effortlessly monitor permits from initial application to final completion, ensuring a smooth progression through every stage.
- **Renewal management and fee control:** Easily handle permit renewals, associated fees, and comprehensive compliance management.
- **Integrated permit issuance:** Generate permits seamlessly within the system and manage insurance requirements related to permits.
- **Holistic bond administration:** Thoroughly manage bonds, ensuring their proper handling and utilisation throughout the permit lifecycle, including field permit review and inspection.
- **Council-wide integration:** Achieve a cohesive and streamlined approach by seamlessly integrating with other modules.
